

Bring your shop online with ASPOS

- Ideal for pet and garden
- Now also for independent entrepreneurs

ASPOS | Pet and garden

Valk Solutions
Empowering retail

IDEAL FOR PET AND GARDEN

The pet and garden industry has a warm place in our hearts. Valk Solutions has been around as a family business since 1989 and our most loyal clients work in the pet and garden industry. Hundreds of pet shops use our ProPOSS cash register. It is precisely these close business relations that we grant the advantages of ASPOS as a modern cloud platform. But users of other checkout systems are also welcome. Bring your specialty shop online now with many extra features

COME ONLINE TOO

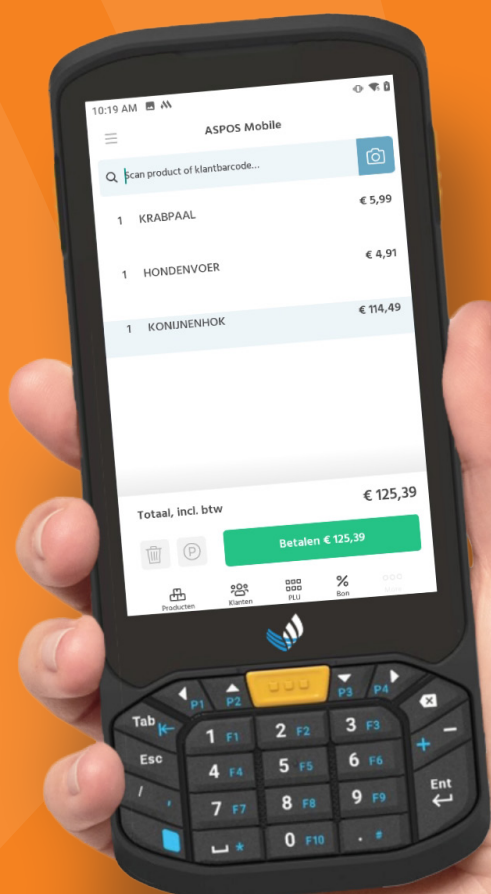

The world is changing rapidly. Your customers are increasingly mobile and online and expect the same from you as their pet shop. So come online now with your shop(s). ASPOS simply runs in the Internet browser. In that way, you can run your business anytime and anywhere, even at home or on holiday. You can view your sales in real time, change prices and place orders. Or make your stock available online in your own online store – it's all possible with ASPOS.

ECONOMY OF SCALE WORKS FOR YOU

With ASPOS, you benefit from the economy of scale of a modern cloud platform while maintaining your independence as an entrepreneur. We make all of the approximately 100 most important pet and garden suppliers available for you in ASPOS. As an business owner, you decide for yourself what you buy. And from whom. We use the well-known group structure of the Dibevo branch association. This enables every pet and garden entrepreneur to get started with it.

UNBURDENED BY TECHNOLOGY

Traditional cash registers run locally; the data is stored on a server in your shop. In the ASPOS cloud we manage the data centrally for you. We make a back up every day; you don't have to do anything. You also no longer need a server in the shop, which also makes a big difference. All you need is a good internet connection with a fixed and unique IP address. In this way, we relieve you of the burden of technology as an entrepreneur.

CENTRAL MANAGEMENT, IT'S THAT EASY

Every day, we update the article data of all about 100 suppliers in ASPOS. You can adjust your preferred suppliers, purchase and sales prices yourself in ASPOS. Only master data – such as brands, groups and descriptions – is fixed. If there is a problem with an item, send us a product notification and we will fix it for you. ASPOS. In this way, together, we create synergy that benefits the entire industry.

COMPLETE CASH REGISTER AND BACK OFFICE

ASPOS supports all the familiar cash register and back office functions you need in the shop. It looks a bit different, but you get used to it quickly. You can be assured of that, thanks to all the users who preceded you on ASPOS. Are you still missing something? Please let us know. ASPOS is being developed intensively and it might be possible to meet your wishes. A new version is released each year, so you always keep up with the times.

ONLINE STORE AND SHOP(S) IN ONE HAND

Do you already have an online store? With our API, your web builder can link it to ASPOS. In that way, you can manage your shop(s) and online store in one place. Still don't have an online store? Open a new online store now with our e-commerce partner First Focus. We have a menu with 3 variants: pro, business and lite, starting at EUR 300 per month. Make sure your stock management is in order so that customers don't miss out.

UNIQUE OFFERS FOR LOYAL CUSTOMERS

Already a client of ours? If so, you can switch to ASPOS free of charge for the same monthly amount that you now pay for ProPOSS. No licence fees will be charged, because you exchange the old licence. We will bear the switching costs, which we will write off over a period of 5 years. Not yet a client? Then as well we have some nice offers waiting for you with a 50% discount on switching costs. Call 0348 431 490 and ask for Bob, Danique or Jeroen for a free consultation.

ALSO FOR ALL YOUR EQUIPMENT

If your cash register PC meets the minimum requirements, you can simply continue using it. Older equipment will have to be replaced. We buy in bulk and are happy to make you a competitive offer. Our latest high definition widescreen checkout comes directly from the manufacturer in China. We offer a 100% guarantee on new equipment for no less than 5 years. You have also come to the right place for all kinds of peripherals.

Onze trouwste klanten

WE HELP YOU GET STARTED

We ensure a smooth switch to ASPOS. You can practice with the ELE ahead of time and handy instruction cards are available. On the agreed date, you close the old cash register in the evening and start up in ASPOS in the morning. We will then help you get started with ASPOS in 4 telephone sessions. In ASPOS, standard layouts are available for you for quotations, orders, packing slips and invoices with your own logo and shop details.

A CLEAN START

Want to start with a clean slate in ASPOS? In that way, you make it easy for us and you get the first month free. Otherwise, we will transfer your sales history to ASPOS going back a period of up to a full calendar year. We will map your history on EAN code. Unknown items will be placed on PLU and we will inform you in advance. In addition to your sales, you can also take along customers, savings points, stocks, preferred suppliers, purchase and sales prices to ASPOS.

OLD-FASHIONED GOOD SERVICE

You can also expect our old-fashioned good service on the modern cloud platform ASPOS. The customer service and repair service are available 365 days a year. Critical malfunctions are guaranteed to be resolved within 4 hours. Our support consultants know your shopping process and will usually be able to help you directly by phone. Otherwise our service engineers will come to you. We do everything we can to make sure you are satisfied.

MOVING TOGETHER TOWARDS THE FUTURE

As Valk Solutions, we are 100% convinced of a good future for retail. With ASPOS, you bring your shop online and take advantage of the benefits of the Internet. Our loyal clients in the pet and garden industry have a head start and can switch entirely free of charge. We look forward to getting the signal from you to bring your shop(s) online. In that way, we will move together towards the future.

Bring your shop online

**NOW ALSO FOR
INDEPENDENT
ENTREPRENEURS**

The ASPOS omnichannel cloud platform is the most successful retail solution on the market. More than 25,000 users work in the ASPOS cloud each day. New clients are added every month. Every year we process more than 250 million sales transactions for our customers. Until recently, ASPOS was only available to chain shops. By popular demand we have now also made ASPOS suitable for independent entrepreneurs with one or more specialty shops.
